HISTORY OF THE SIOUX INDIANS.

Alexander Ramsey, of Pennsylvania, became the first Governor of Minnesota Territory in 1849; the Sioux ceded to the United States, by treaty with Ramsey and others, the States of Wisconsin, Minnesota and Iowa. They were then put on a reservation in the western part of Minnesota, and a vast annuity fund of three million dollars was promised to them. The first Sioux visited Washington City in 1853, and were again shorn of half their reservation. Land in severalty was to be given to them instead of land in common, as they immemorably had held it, and a portion of their fund was set aside to educate and civilize them. This they resented, as well as the rapid intrusion of white settlers. They accused Ramsey and others of stealing and diverting their money and denounced the whole scheme of apprenticing them to civilization. Finally, in 1862, the Minnesota Sioux arose, just in the period of national gloom following McClellan's and Pope's defeats, and murdered 2,000 people, overran eighteen counties, put 30,000 settlers to flight and destroyed \$300,000 of improvements. "The radical moving cause of the outbreak," wrote Major Galbraith, "is the ingrained and fixed hostility of the savage barbarian to reform, change and civilization." Col. Sibley marched on the murderers, who were commanded by Little Crow; his volunteer troops fought two pitched battles, retook 269 prisoners, many of whom had been violated, and he hanged 38 Sioux out of 303 condemned. Their treaties were annulled; the whole nation was removed to the Upper Missouri, where the wild Sioux had long roamed to large, and in 1863, under Gen. John Pope's direction, Generals Sibley, of Minnesota, and Alfred Sully, son of the Philadelphia artist, with two columns of six thousand men, attacked the embattled nation on the plains of Dakota, and drove but did not demoralize them. Although not a great leader in the Minnesota massacre, Sitting Bull commenced his bloody record at that time.

By this brief resume it will be seen what the present war is. The Sioux, who are supposed to have originally dwelt between Lake Superior and Hudson's Bay, and became hardy and strong in that cold, bracing climate, were pushed westward two hundred years ago by a branch of the great Algonquin family, the Chippeways, who had the advantage of fire-arms. We found them twenty years ago, occupying the trans-Mississippi region and living on the high plains from Wisconsin to the Rocky Mountains, covering five times as much ground as the State of Pennsylvania, with 4,000 lodges, 30,000 inmates and 6,000 warriors. When Sibley fought them in 1863 at Stony Lake, he wrote: "No such concentration of force has ever been made by the savages of the American continent. * * * The remnant of the Minnesota band had joined the Dakotas of the plains and formed an enormous camp of 10,000 souls."

Was there ever a National Presidential Convention when more ballots were taken than in the Republican Convention at Cincinnati?

Yes; in the Democratic National Convention of 1844. Nine ballots were taken. Mr. Polk's name was not mentioned in the convention until the eighth, when he received 44 votes, and on the ninth 233, and was nominated. At the Democratic Convention of 1853 forty-nine ballots were had. Mr. Pierce's name was not brought forward until the thirty-fifth ballot, when he received 15 votes, and on the forty-ninth 282 and was nominated. At the Whig National Convention the same year Gen. Scott was nominated on the fifty-third ballot. On the first had 131 votes. At the Democratic Convention of 1856 Buchanan was nominated on the seventeenth ballot. At the Democratic Convention of 1860 fifty-seven ballots were had, when without nominating, the Convention adjourned to Baltimore, when Douglass was nominated on the second ballot.

THE BELMONT TELEGRAPH LINE.—The Enreka Sentinel of the 3d inst. says: "Ground was broken day before yesterday for the telegraph line between this place and Belmont, and last night Division Superintendent Lovell informed us that nine miles of poles had been erected. All the rest of the holes are ready with the exception of digging out, and it is expected that the line will be in complete working order by the middle of next month."

EASTERN DISPATCHES.

Send—Another Lie—Interesting Suit—Both Houses Agree.

WASHINGTON, August 9.

In the House, Waudell called up the Senate Bill allowing the Pacific Mail Steamship Co., to carry the mails on its new steamships. After some discussion as to whether the bill was sufficiently guarded to exclude the idea of recognizing any claim for extra subsidy, the bill was passed with an amendment striking out the words, "except such as may lawfully exist under the law of the 17th of February 1835."

W. B. Moore, special agent of the Treasury, in a letter to the Chairman of the Committee on whisky frauds, says Bluford Wilson's testimony in relation to him is false. He never swore he saw Babcock open a letter from Joyce, nor was he dismissed for leaving his post and going to St. Louis as a witness in the Belknap case.

Hallett Killbourne has entered suit against the Speaker of the House, Sergeant at Arms, and members of the Real Estate Committee, claiming a hundred and fifty thousand dollars damages for injuries sustained by reason of his imprisonment without cause.

The House amendments to the Senate Bill to provide for the sale of the reservation of the Confederated Ojibwa and Missouri Indians in Kansas and Nebraska has been agreed to and the bill passed.

Ben Butler Again.

BOSTON, August 9.

B. F. Butler's letter, accepting the proffered nomination for Congress by the Seventh District Republicans is published to-day. He says he has not changed his views. The country having been committed in favor of resumption by legislative action, he believes it should be carried into effect as speedily as possible. He places himself squarely on the Republican platform.

The Indian Troubles.

CHICAGO, August 9.

Advices received this morning at Sheridan's headquarters from General Crook, dated Aug. 4th, say that Colonel Merritt found him with the Fifth Cavalry on the 3d instant; that the Indians have moved from the Big Horn mountains in the direction of the Rosebud mountains. On the 5th he would leave the wagon train and move with 2,000 men down Tongue river in the direction the Indians are supposed to have gone. He will be absent from the train fifteen days. The Indians appear to have cut off his communication by scouts with Terry.

WESTERN DISPATCHES.

San Francisco News.

SAN FRANCISCO, August 9.

There is a rumour on the street to-day that Harris & Hart, a prominent firm of stock brokers in the big board, had failed. Inquiry at the office of the firm elicited information that they were involved by the difficulties of heavy customers, and as a measure of precaution, had suspended business, pending settlement of affairs. They assert, however, that the matter will probably be satisfactorily adjusted shortly and that they will suffer no permanent inconvenience. It was rumored that their trouble arose from the failure of Scofield & Co., but that is asserted to be an error. Scofield's failure is supposed to have had all the effect on the market yesterday that it is likely to exert. Those who were bitten by him are quite reticent to-day, but state that in the course of the day they will be able to ascertain how matters stand, as to which they profess, at present, to be dark. They also throw out intimations that something may be saved from the wreck and a better face be put on the affair. There are rumors to-day involving the condition of other prominent stock-broking firms, but they have not been authenticated.

Small-pox broke out afresh this morning. Eleven cases were reported up to noon, five of whom were deceased Chinamen. Two other deaths occurred this morning at the Pest-house. Two new cases and one death were reported yesterday. Last night a man named John Staffer, just discharged from the Napa Insane Asylum, applied at the City Prison for lodging. To-morrow he was found suffering from a first-class case of small-pox and was summarily hustled out.

The anti-Piper wing of the Democracy met yesterday and made a nomination for Congress, for this District, in opposition to Piper, the present incumbent. After the usual amount of by-play a vote was taken, which resulted in 21 votes for Horace Davis and 7 for John S. Hager. Davis is a Republican and a favorable nominee by the Republicans of this district to-day, and it is believed this action of the Democrats will insure his nomination as the strongest candidate. The Convention also nominated W. B. C. Brown as candidate for State Controller, to fill the vacancy occasioned by the death of Mandeville. Resolutions were adopted.

ed depreciating the use of coin to influence nominations and elections, and calling upon all Democrats to join them in their efforts in that direction to purify the ballot-box.

Suicide at Belmont.

EUREKA, August 8.

J. V. Hathaway, a prominent citizen of Belmont, committed suicide yesterday morning at an early hour, by shooting himself through the head. Death ensued shortly afterward. The cause is thought to have been temporary insanity.

FIRES IN THE MOUNTAINS.

The Flames on the Wampage in the Sierras—Much Smoke, Much Fire and but Little Damage.

[Va. Enterprise of August 9th]

A grand old fire was raging in the Sierras yesterday in the vicinity of Lake Tahoe. Such a cloud of smoke rolled up from the west that for a time it was supposed that the town of Carson was being destroyed. However, telegrams soon arrived to the effect that the fire was in the Sierras, among the timber ranches. During nearly the whole afternoon a dense cloud of smoke rose up in the southwest and floated far off to the eastward, obscuring all the mountain ranges in that direction. The veil of smoke must have extended at least over 100 miles of territory. Between this city and Carson the smoke was so dense that persons coming up on the trains complained that it smarted their eyes.

The impression in this city was that great destruction was being wrought in the mountains, but the loss was really much less than any one would have guessed, the great volume of smoke considered.

The principal loss was that sustained by John Maldoon, who had some 600 cords of wood burned. The great body of the fire was in timber lands that had been cut over; lands covered with pine brush and stumps—"stumpage" ground. It was the burning over of thousands of acres of this ground that caused the great smoke. It is thought that the fire was caused by the carelessness of a camp of Washoe Indians.

At the mills of Bliss, Yerington & Co. near Glenbrook, there was also a small fire yesterday, and about 5,000 feet of lumber were destroyed.

But that the company have a system of water works, with hydrants, hose and all else required, there would no doubt have been a very bad fire, probably not less than half a million dollars worth of lumber would have been destroyed. The water-works were constructed at a cost of \$30,000, and they yesterday saved property worth many times their cost.

At 10 o'clock last night the smoke from the mountains had nearly subsided and the fire seemed to have run its course.

Tragedy at Austin.

The Revelle of the 7th says.

About 9 o'clock last night a stabbing and shooting scrape occurred on Cedar street between Wm. J. Kelly, late night watchman in this city, and a woman named Adelia Davis, in which Kelly was stabbed through the heart and almost immediately killed and Adelia Davis was shot through the thigh. As near as we can find out, the origin of the tragedy occurred on the race-track yesterday. It seems that Adelia Davis and Mollie Cotton had a quarrel, which ended in a rough and tumble fight, and that Kelly separated the two combatants. After the race was over the parties returned to this city, and at the time indicated above a pistol shot was heard in the direction of Cedar street, which caused a crowd to rush that way, arriving in front of Ralph Woodward's saloon, Kelly was found on the ground in a pool of blood, and upon examination it was ascertained that he had been stabbed through the heart. He was not long suffering, as he died a few minutes after the crowd gathered around him. He was taken to Fireman's Hall, where an examination of his wound was made by Dr. Huntman. The woman, who claims to have been shot by Kelly, ran into Woodward's saloon, where she remained until after an examination of her wound was made by the physician, and was subsequently taken to her residence. This seems to be a very complicated case, and we find it impossible to get at the facts.

SOME three or four weeks ago the Reno Journal published an item stating that Governor Tilden, "while in the New York Senate" introduced certain legislation adverse to our Hebrew fellow citizens. M. Lippman, a citizen of Reno, wrote a letter to Gov. Tilden with an issue of the JOURNAL referred to, and received in reply a letter in which Tilden, by one of his secretaries (Stebbins), denied that he had ever been in the New York Senate; that he had ever at any time introduced a measure in the New York Assembly, or elsewhere, adverse to the Hebrews; that any organization was being formed by those citizens in New York, against him, as the JOURNAL stated, and adding, that many of his warmest friends and strongest supporters are of the Hebrew faith.—Va. Chronicle, 9th.

Mr. BENTON will soon resume the practice of law in Louisville, Ky.

INDICTMENT—We charge the Democratic party with being the same in character and spirit as when it sympathized with treason; with making its control of the House of Representatives, the triumph and the opportunity of the nation's recent foes; with re-asserting and applauding at the National Capitol the sentiments of unrepentant rebellion; with sending Union soldiers to the wall and promoting Confederate soldiers to the front; with deliberately proposing to repudiate the plighted faith of the Government; with being equally false and imbecile in overshadowing the ends of justice by its partisan mismanagement and obstruction of investigation; with proving itself through the period of its ascendancy in the Lower House of Congress, utterly incompetent to administer the Government, and we warn the country against trusting a party thus alike unworthy, recreant and incapable.

PUBLIC SCHOOLS—The Public School System of the several States is the bulwark of the American Republic, and with a view to its security and permanence, we recommend an amendment to the Constitution of the United States forbidding the appropriation of any public fund or property for the benefit of any school or institution under sectarian control.

'HARD MONEY' PLANK—In the first Act of Congress signed by President Grant, the National Government assumed to remove any doubt as to its purpose to discharge all its just obligations to public creditors, and solemnly pledged its faith to make provision, at the earliest practicable period, for the resumption of United States notes in coin. Commercial prosperity, public morals and national credit demand that the promise be fulfilled by a continuous and steady progress toward specie payment.

POLYGAMY—The Constitution confers upon Congress sovereign power over the Territories of the United States, for their government, and in the exercise of this power it is the right and duty of Congress to prohibit and extirpate in the Territories that relic of barbarism, polygamy; and we demand such legislation as shall secure this end, and the supremacy of American institutions in all the Territories.

THE CHINA PLANK—It is the immediate duty of Congress to fully investigate the effect of the immigration and importation of Mongolians upon the moral and material interests of the country.
